### Description

This 2025 BYD Seal Design is a remarkable example, boasting an exceptionally low mileage of just 586 miles, making it practically new. As a BYD manufacturer approved vehicle, it comes with the assurance of quality and a substantial 70 month warranty, alongside an MOT valid until July 2028. This electric saloon, with its 83 kWh battery, offers an impressive maximum range of 354 miles, and benefits from partial service history, indicating it has been cared for by its sole owner. The BYD Seal Design is equipped with a host of premium features designed for comfort and convenience. Enjoy the luxury of both front passenger and driving seats offering electric adjustment with heating, ventilation, and memory functions for the driver, enhancing every journey. The panoramic roof floods the cabin with natural light, creating an airy and spacious feel. Stay seamlessly connected with Apple CarPlay and Android Auto integration, while the remote climate control and ignition allow you to prepare the car before you even step inside. These features collectively elevate the BYD Seal Design, offering a superior experience compared to other vehicles in its class.
