Description

This 2024 MINI Electric Cooper E Exclusive is a rare find, having been driven for only 3,531 miles by a single owner. As a MINI manufacturer approved vehicle, this electric hatchback offers peace of mind alongside its modern design. The car is equipped with a 41 kWh battery that provides a maximum range of 186 miles when new. Charging is straightforward, taking 5 hours and 45 minutes for a full charge at home using a 7kW charger, or just 32 minutes to reach 80% capacity at a fast public charging point. The performance of this model stands out, as it can accelerate from 0 to 62mph in 7.3 seconds. This quick acceleration provides a responsive driving experience that makes navigating urban environments and open roads efficient and enjoyable. By combining this agile performance with the convenience of rapid public charging capabilities, this vehicle offers a practical and capable solution for those looking to transition to electric driving without

compromising on the driving dynamics associated with the brand.
