Description

This 2025 CUPRA Tavascan V2 is a CUPRA manufacturer approved electric vehicle with only one owner from new. It boasts a substantial 82 kWh battery, offering a maximum range of 343 miles, and features a fixed panoramic sunroof for an airy cabin experience. For convenience, it includes a wireless charger for your phone and a rear view camera to aid with parking. The heated front seats ensure comfort during colder journeys, while Side Assist provides an extra layer of safety by monitoring blind spots. The Tavascan V2 excels with its impressive performance, achieving 0-62mph in just 6.8 seconds, demonstrating its dynamic capability. This electric SUV also offers a large boot space, making it practical for everyday use and longer trips. When it comes to charging, a full charge at home using a 7kW charger takes approximately 39 hours, but

for rapid top ups, it can reach 80% charge in as little as 32 minutes at a public charging station, highlighting its efficiency and suitability for modern driving needs.
