Description

This 2026 BYD Atto 2 Boost is a BYD manufacturer approved electric vehicle with a full dealership service history and only one owner. It features a 51 kWh battery offering a maximum range of 214 miles and can charge from empty to 80% in just 43 minutes. Notable features include front parking radars with parking assistance, adaptive and intelligent cruise control, a heated steering wheel, automatic on off LED headlights, and a heated front passenger seat. The BYD Atto 2 Boost stands out with its impressive charging speed and comprehensive suite of driver assistance technologies. The adaptive cruise control and parking assistance systems offer enhanced convenience and safety, while the heated steering wheel and front passenger seat provide extra comfort, particularly during colder months. These elements combine to make this electric vehicle a

compelling choice for those seeking efficiency and advanced features.
