Description

This 2026 MG IM5 Standard Range is a superb example, having had only one owner since new. This electric vehicle boasts a substantial 75 kWh battery, offering a maximum range of 304 miles on a full charge. Convenience is key with features like a Mobile Phone Bluetooth Key, a Ventilated Wireless Mobile Phone Charger, and seamless Wireless Apple CarPlay and Android Auto connectivity. For comfort, the driver benefits from a 12-way electric adjustable seat with 4-way power lumbar support, seat memory, and an easy entry function. Safety is enhanced with Blind Spot Detection and Lane Change Assist. The MG IM5 Standard Range truly excels with its impressive performance, accelerating from 0 to 62mph in just 6.8 seconds, a speed that sets it apart from many other vehicles in its class. Its 304 mile range is a significant

advantage for longer journeys, and when it's time to recharge, you can achieve an 80% charge from empty in a rapid 29 minutes at a public charging station. At home, a full charge using a 7kW charger takes approximately 13 hours and 20 minutes. Furthermore, this model offers generous boot space, making it a practical choice for everyday use and weekend getaways.
