Description

This MG MGS6 Trophy Long Range is a remarkable example, having had only one owner since its 2026 registration. As an electric vehicle, it boasts a substantial 77 kWh battery, offering an impressive maximum range of 329 miles when new. This particular model comes with MG manufacturer approval, assuring you of its quality and care. Inside, you'll find a host of premium features designed for comfort and convenience, including Full Auto LED Headlights with a Follow Me Home function, a Panoramic Glass Roof with an electric blind, and a Head-up Display to keep your eyes on the road. The cabin also features a Wireless Mobile Phone Charger and both heated (three levels) and ventilated (one level) front seats, ensuring a pleasant driving experience in any weather. The highlights of this MG MGS6 Trophy Long Range truly set it apart. Its exceptional battery range of 329 miles means fewer stops and more miles between charges compared to many other electric vehicles. When you do need to recharge, a full charge at home using a 7kW charger takes approximately 13 hours and 20 minutes, while rapid public charging can take you from empty to 80% in just 43 minutes, demonstrating its advanced charging capabilities. Furthermore, the generous boot space provides ample room for luggage, shopping, or equipment, making it a practical choice for everyday life and longer journeys.
