Description

This 2022 Volkswagen ID.4 Pure Life has been meticulously maintained by just one owner from new and is now available as a Volkswagen manufacturer approved vehicle. With a low mileage of 30,327 miles, this electric SUV offers a reliable and well-cared-for option for your next car. The interior is designed for comfort, featuring heated front seats to ensure a pleasant driving experience regardless of the weather. As a Pure Life variant, it combines the practicality of a modern electric vehicle with the trusted build quality associated with the Volkswagen brand. The ID.4 is equipped with a 55 kWh battery that provides a range of 213 miles when fully charged, making it a capable choice for both daily commuting and longer journeys. Charging is straightforward and efficient, with a full home charge using a 7kW wallbox taking 7 hours and

30 minutes, while public rapid charging allows you to reach an 80 percent charge in just 38 minutes. Beyond its charging capabilities, the vehicle offers a large boot space, providing ample room for luggage, shopping, or equipment. This combination of efficient charging times and generous storage capacity makes it a highly practical and versatile choice for those seeking a modern electric SUV.
