Description

This 2026 Geely EX5 Pro is a rare find, having covered only 10 miles from new and remaining with just one owner. As an electric vehicle, it features a 60 kWh battery that offers a range of 258 miles when fully charged. The interior is equipped with the FLYME AUTO in-vehicle infotainment system, which includes Bluetooth connectivity, while the exterior benefits from all-LED automatic headlights. For added convenience and safety, the vehicle includes keyless entry and passive start, along with a blind spot detection system. It also comes fitted with a heat pump air conditioning system to help maintain a comfortable cabin environment. The performance of this model is notable, as it can accelerate from 0 to 62mph in 6.9 seconds, providing a responsive driving experience. When you need to recharge, the vehicle supports rapid public

charging, capable of going from empty to 80 percent in just 32 minutes. These specifications combine efficient electric travel with modern technology and quick charging capabilities, making it a practical choice for those seeking a nearly new vehicle that balances daily usability with capable acceleration.
