Description

With only 100 miles on the clock, this 2026 Geely EX5 Pro offers a rare chance to own a vehicle that is essentially brand new. As a single owner car, this electric model comes with a 60 kWh battery that provides a maximum range of 258 miles when new. The interior is equipped with modern conveniences, including automatic air conditioning for climate control and a heated steering wheel for added comfort. Technology is well integrated, featuring wireless Apple CarPlay and a wireless phone charging pad to keep devices connected and powered. Parking is made straightforward with the inclusion of rear parking sensors and a dedicated parking assistance system. This vehicle stands out for its impressive performance, capable of accelerating from 0 to 62mph in just 6.9 seconds. Beyond its quick acceleration, the EX5 Pro is designed for practical daily use, particularly with its efficient charging capabilities. When using a fast public charger, the battery can be charged from empty to 80 percent in only 32 minutes. These specifications combine to create a capable and modern electric vehicle that balances rapid performance with convenient charging times, making it a strong choice for those seeking a contemporary driving experience.

Alliance Centre, Greenwell Road, Aberdeen, United Kingdom, AB12 3AX
