Description

The 2026 Alpine A390 GT is a fully electric vehicle that combines modern performance with practical design. This particular example has been well maintained by its only owner and has covered just 556 miles since it was first registered. As a GT variant, it offers a refined driving experience supported by a four wheel drive system, ensuring stability and control in various conditions. The vehicle is equipped with an 89 kWh battery, which provides a maximum range of 345 miles when new. Charging is straightforward, with a full charge at home taking 13 hours and 12 minutes using a 7kW charger, while public rapid charging can take the battery from empty to 80 percent in just 35 minutes. This model stands out for its blend of comfort, technology, and capability. Drivers can enjoy a 0-62mph acceleration

time of 4.8 seconds, providing responsive power when needed. The interior is designed for convenience and luxury, featuring a heated steering wheel finished in Deep Blue Nappa leather and a Devialet high-fidelity audio system with 13 speakers. Parking is made simple through front, side, and rear sensors, complemented by a 360 degree camera with an around view monitor. Passengers are kept comfortable with dual-zone automatic climate control that includes an air purification function, and the vehicle offers a large boot space to accommodate luggage or shopping with ease.
