Description

This 2024 CUPRA Born e-Boost V1 is a fully electric vehicle that has been maintained by only one owner from new. As a CUPRA manufacturer approved vehicle, it offers peace of mind regarding its condition and history. With a low mileage of 11,468 miles, this example remains in excellent order for its age, providing a reliable option for those looking to transition to electric driving. The CUPRA Born stands out for its practical design and impressive performance capabilities. It features a 62 kWh battery that offers a maximum range of 262 miles when new, making it suitable for both daily commutes and longer journeys. Charging is straightforward, with a full home charge taking 9 hours and 30 minutes using a 7kW charger, while public rapid charging allows for a boost from empty to 80% in just 37 minutes. Drivers will appreciate the responsive

acceleration, as the vehicle can reach 0-62mph in 6.6 seconds. Furthermore, the interior is designed with a large boot space, ensuring that the vehicle remains a versatile choice for everyday use.
