Description

This 2022 Volkswagen ID.4 Pure Life is a fully electric vehicle that comes with the peace of mind of being Volkswagen manufacturer approved. As a practical and modern choice for drivers looking to transition to electric motoring, this model combines the reliability associated with the brand with the efficiency of a 55 kWh battery. When new, this battery offered a maximum range of 213 miles, making it a suitable option for both daily commuting and longer journeys. The ID.4 is designed with convenience in mind, offering flexible charging options to suit different lifestyles. You can charge the vehicle at home using a 7kW charger in 7 hours and 30 minutes, or utilise rapid public charging points to reach an 80 percent charge in just 38 minutes. Inside, the cabin is equipped with heated front seats to ensure comfort during colder weather, while the generous boot space provides ample room for luggage and shopping. These practical features make the vehicle a versatile and comfortable choice for everyday use.
