Description

This 2022 CUPRA Born V2 is an all-electric vehicle that has been maintained by only one owner from new. With a very low mileage of 13,523 miles, this car is also CUPRA manufacturer approved, providing peace of mind regarding its condition and history. The vehicle is equipped with practical features including Bluetooth connectivity and heated front seats, ensuring comfort and convenience for both the driver and passengers on every journey. The CUPRA Born V2 offers a blend of performance and practicality, highlighted by its ability to accelerate from 0 to 62mph in 7.3 seconds. It features a 62 kWh battery that provides a maximum range of 265 miles when new, making it a capable choice for daily driving. Charging is straightforward, with a full charge at home using a 7kW charger taking 9 hours and 30 minutes, while public rapid charging can boost the battery from empty to 80% in just 37 minutes. Beyond its electric performance, the vehicle provides a large boot space, offering the versatility needed for everyday tasks and longer trips.
