Description

This 2022 CUPRA Born V2 is an electric vehicle that has been maintained by only one owner from new. With a very low mileage of just 5,121 miles, this car is a CUPRA manufacturer approved vehicle, offering peace of mind regarding its condition and history. The Born V2 is designed for efficiency and performance, featuring a 62 kWh battery that provides a maximum range of 265 miles when new. It offers practical charging solutions, with a full home charge taking 9 hours and 30 minutes using a 7kW charger, while public rapid charging can take the battery from empty to 80 percent in just 37 minutes. Drivers can enjoy a responsive experience with acceleration from 0 to 62mph in 7.3 seconds, alongside a large boot space for added utility. Inside, the cabin includes heated front seats for comfort and Bluetooth connectivity for convenience.
