Description

This 2020 Volkswagen ID.3 Pro Performance Life is a fully electric vehicle that has been maintained by only one owner from new. As a Volkswagen manufacturer approved vehicle, it offers peace of mind regarding its condition and history. This model is designed to provide a practical and modern driving experience, combining the reliability associated with the brand with the efficiency of an electric powertrain. The vehicle is equipped with a 62 kWh battery that offers a maximum range of 263 miles when new, making it a capable choice for both daily commuting and longer journeys. Charging is straightforward, with a full charge at home using a 7kW charger taking 9 hours and 30 minutes, while public rapid charging allows for an empty to 80 percent charge in just 37 minutes. Performance is another key strength, as the car can accelerate from 0 to 62mph in 7.3 seconds, providing responsive power when needed. Furthermore, the interior design prioritises practicality, featuring a large boot space that ensures there is plenty of room for luggage and everyday items.
