Description

This 2026 Audi Q4 e-tron S line is an electric vehicle that has had only one owner from new. As an Audi manufacturer approved vehicle, it offers peace of mind regarding its condition and history. This model combines the premium build quality expected from the brand with the efficiency of an electric powertrain, making it a practical choice for those looking to transition to electric driving. The vehicle features a 63 kWh battery that provides a maximum range of 250 miles when new, ensuring it is well suited for both daily commutes and longer journeys. Charging is straightforward, with a full home charge using a 7kW charger taking 9 hours and 45 minutes, while public rapid charging allows for a boost from empty to 80 percent in just 27 minutes. Inside, the cabin includes a Bluetooth interface for seamless connectivity, and the

design prioritises practicality with a large boot space that offers significant room for luggage and shopping. These features combine to create a versatile and capable electric SUV that balances performance with everyday usability.
