Description

This 2026 BMW iX2 20 M Sport is a fully electric vehicle that has been maintained by only one owner. As an M Sport model, it combines the efficiency of an electric powertrain with the refined styling and equipment associated with this trim level. The vehicle is equipped with a 67 kWh battery, which provides a maximum range of 320 miles when new. Charging is straightforward, with a full charge at home using a 7kW charger taking 9 hours and 10 minutes, while the fastest public charging option can replenish the battery from empty to 80 percent in just 33 minutes. The interior features Perforated Veganza upholstery in black and includes heated seats for both the driver and front passenger for added comfort. Practicality is a key strength, as the vehicle offers a large boot space for your belongings. Technology is integrated throughout, with the BMW Live Cockpit Plus system supporting Apple CarPlay, Android Auto, and Bluetooth connectivity. The Technology Package enhances the driving experience with keyless entry, wireless phone charging, and advanced LED headlights, which are complemented by automatic visibility functions. These features ensure that the iX2 provides a modern, connected, and comfortable environment for daily travel.

Alliance Centre, Greenwell Road, Aberdeen, United Kingdom, AB12 3AX
