Description

This 2023 CUPRA Born V1 is a fully electric vehicle that has been maintained by only one owner from new. With a recorded mileage of 19,140 miles, this example is considered low for its age and comes with the added peace of mind of being CUPRA manufacturer approved. The vehicle is equipped with Bluetooth connectivity for your devices, ensuring you stay connected while on the move. The CUPRA Born offers a practical balance of performance and utility, featuring a 62 kWh battery that provides a maximum range of 264 miles when new. Drivers can enjoy responsive acceleration, with the car capable of reaching 0-62mph in 7.3 seconds. For longer journeys, the vehicle supports rapid public charging, allowing you to charge from empty to 80% in just 37 minutes, while a full charge at home using a 7kW charger takes 9 hours and 30 minutes. Beyond its

electric performance, the car provides a large boot space, making it a versatile choice for daily errands or longer trips.
