Description

This 2023 CUPRA Born V2 is a fully electric vehicle that has had only one owner from new. As a CUPRA manufacturer approved car, it offers peace of mind regarding its condition and history. The vehicle is equipped with practical features for daily use, including heated front seats for added comfort and Bluetooth connectivity for your devices. The CUPRA Born V2 is designed to balance performance with everyday utility, featuring a 62 kWh battery that provides a maximum range of 264 miles when new. For those who need to charge on the go, the car supports rapid public charging, capable of reaching an 80 percent charge in just 37 minutes, while a full charge at home using a 7kW charger takes 9 hours and 30 minutes. Drivers will appreciate the responsive acceleration, which allows the car to reach 62mph from a standstill in 7.3 seconds.

Furthermore, the vehicle offers a large boot space, making it a practical choice for those who require extra room for luggage or shopping.
