Description

This 2026 BYD Atto 3 EVO Design is a fully electric vehicle that has been maintained by only one owner. As a Design trim model, it combines modern electric efficiency with a practical layout, making it a suitable choice for those looking for a contemporary driving experience. The vehicle is equipped with a 75 kWh battery, which provides a maximum range of 316 miles when new. Charging is straightforward, with the ability to reach an 80 percent charge from empty in just 28 minutes when using a fast public charger. The Atto 3 EVO offers a blend of performance and convenience features that enhance daily driving. It is capable of accelerating from 0 to 62 mph in 5.5 seconds, providing responsive power when needed. Inside, the cabin includes a heated, vegan leather multi-function steering

wheel and a smartphone wireless charger with a cooling function. Safety and parking are supported by front and rear parking radars, along with blind spot detection and assistance systems. Additionally, the vehicle provides a large boot space, offering practical storage capacity for various needs.
