Description

The 2026 BYD Sealion 7 Excellence is a fully electric vehicle that has had only one owner from new. This model features a four wheel drive drivetrain powered by a 91 kWh battery, which provides a maximum range of 312 miles when fully charged. For home charging using a 7kW unit, the battery takes 14 hours and 54 minutes to reach full capacity, while public rapid charging allows the vehicle to go from empty to 80 percent in just 27 minutes. This vehicle offers a blend of performance and convenience, highlighted by its ability to accelerate from 0 to 62mph in 4.5 seconds. Practicality is a key focus, with a large boot space and a factory fitted towbar included for added utility. Inside, the cabin is equipped with a panoramic roof featuring an electrically adjustable sunshade, alongside adaptive cruise control for easier motorway driving. Connectivity is

straightforward, as the system supports both Apple CarPlay and Android Auto, and there is a 50W wireless charging pad to keep mobile devices powered during journeys.
