Description

The 2025 BYD Seal Excellence is a fully electric saloon that combines modern performance with practical design. This particular vehicle has had only one owner, ensuring a well-maintained history for its next driver. Built with a four-wheel drive system and an 83 kWh battery, it offers a maximum range of 323 miles when new. For those using public charging networks, the battery can be charged from empty to 80 percent in 42 minutes, making it a capable choice for longer journeys. This Excellence trim is designed to provide a comfortable and secure driving experience through a range of advanced features. The interior includes a dual-zone climate control system and a fixed panoramic roof that creates an open feel within the cabin. The driver is well supported by an eight-way electrically adjustable seat, which also features four-way lumbar

support, ventilation, heating, and position memory settings. Safety and convenience are further enhanced by blind spot detection with blind spot assistance, as well as automatic headlights that adjust to driving conditions. With the ability to accelerate from 0 to 62mph in 3.8 seconds, this model offers a responsive and engaging drive that stands out in the electric vehicle market.
