Description

The 2025 BYD Seal Excellence is a fully electric saloon that has been maintained by only one owner. This model features an 83 kWh battery, which provides a maximum range of 323 miles when new. Designed with a four wheel drive drivetrain, the vehicle is capable of accelerating from 0 to 62mph in 3.8 seconds. For those using public charging points, the battery can be charged from empty to 80 percent in 42 minutes. This vehicle is equipped with a range of features designed to enhance comfort and convenience, including a fixed panoramic roof and remote climate control and ignition. The driving experience is supported by adaptive cruise control and intelligent cruise control systems. Inside, the driver benefits from an eight-way electric adjustment seat that includes four-way electric lumbar support, ventilation, heating, position memory, and an integrated headrest.

Additionally, the cabin includes wireless smartphone charging, ensuring that technology remains accessible and powered throughout your journey.
