Description

The 2026 BYD Seal Excellence is a fully electric vehicle that has been maintained with a full service history and has had only one owner from new. This model features an 83 kWh battery, which provides a maximum range of 323 miles on a full charge. When using public charging points, the battery can be charged from empty to 80 percent in 42 minutes. The vehicle is equipped with a four wheel drive drivetrain, ensuring consistent performance and handling in various driving conditions. This Excellence trim offers a high level of specification designed to assist the driver and enhance comfort. The vehicle includes a heated, multi-function leather steering wheel and automatic headlights that

activate when needed. Parking is supported by a rear radar system with parking assistance, while safety is bolstered by blind spot detection and assistance. The exterior mirrors are highly functional, featuring electric adjustment, defrosting, reverse auto-tilt, automatic folding, position memory, foot lights, and integrated blind spot indicators. Furthermore, the vehicle delivers significant performance, capable of accelerating from 0 to 62mph in 3.8 seconds.
