Description

This 2026 Kia PV5 Long Range Plus is an electric vehicle that has been maintained by only one owner. As a Plus trim model, it combines modern electric performance with practical design, offering a total battery capacity of 71 kWh. When fully charged, this vehicle provides a maximum range of 256 miles. For home charging using a 7kW unit, the battery takes 11 hours and 6 minutes to reach full capacity, while public rapid charging allows for a charge from empty to 80 percent in 34 minutes. The interior of this vehicle is designed for convenience and comfort, featuring a large boot space that provides ample room for luggage or equipment. Technology is integrated throughout, with wireless Apple CarPlay and Android Auto connectivity alongside a wireless mobile phone charger to keep devices powered without the need for cables. Driving is made easier with smart cruise control that includes stop and go functionality, while the reversing camera system assists with parking manoeuvres. Comfort is further enhanced by a heated steering wheel, ensuring a pleasant driving experience in colder weather.
