Description

The 2026 Changan Deepal S07 Standard is a fully electric vehicle that offers a modern driving experience. This particular example has covered only 10 miles, representing very low mileage for its age, and has had only one owner since new. It is equipped with an 80 kWh battery that provides a maximum range of 295 miles when fully charged. For those using public charging networks, the battery can be charged from empty to 80 percent in 54 minutes. This vehicle includes a range of features designed to enhance comfort and convenience for the driver and passengers. The interior is equipped with heated and ventilated passenger seats, along with a heated steering wheel, ensuring comfort in various weather conditions. Technology is integrated throughout, featuring an AR-HUD head-up display that projects information directly into the driver's line of sight, and a 360-degree high-definition panoramic camera system to assist with parking. The inclusion of keyless entry and keyless start adds a layer of ease to daily use, making this model a well-equipped choice for those seeking a practical and comfortable electric vehicle.
