Description

This 2026 MG MGS5 SE is an electric vehicle that offers a nearly new driving experience, having covered only 100 miles from new. With just one owner since its registration, this car comes with a full service history, providing peace of mind regarding its maintenance and care. It represents a practical choice for those seeking a modern, low mileage electric vehicle that has been well looked after. The vehicle is equipped with a 49 kWh battery that provides a maximum range of 211 miles when new. Charging is straightforward, with a full home charge using a 7kW unit taking 9 hours and 26 minutes, while public rapid charging allows for a boost from empty to 80 percent in just 27 minutes. Convenience is prioritised through features such as keyless entry and automatic LED headlights, which adjust to lighting conditions. Inside, the cabin includes wireless

connectivity for Apple CarPlay and Android Auto, ensuring seamless integration with your smartphone. Parking is also made easier with the inclusion of a reversing camera, which provides clear assistance when manoeuvring in tight spaces.
