Description

The 2023 MG ZS Trophy Connect Long Range is an all-electric vehicle designed for practical, everyday driving. This model is equipped with a 73 kWh battery, which provides a maximum range of 273 miles when new. Charging is straightforward, with a full charge taking 10 hours and 30 minutes when using a standard 7kW home charger. For longer journeys, the vehicle supports faster public charging, capable of reaching an 80 percent charge in 48 minutes. This trim level includes a range of features designed to improve comfort and convenience for the driver and passengers. The interior is equipped with air conditioning that includes an odour and pollutant filter, alongside heated front seating for added comfort during colder weather. Technology is integrated throughout the cabin, featuring a wireless mobile phone charger and automatic

headlights that adjust to lighting conditions. Parking is made simpler by the inclusion of a 360 degree parking camera system, which provides comprehensive visibility to assist with manoeuvring in tight spaces.
