Description

Ex Demonstrator Save ££££££'s This 2026 Kia EV3 GT-Line S is a fully electric vehicle that has been a demonstrator. As a GT-Line S model, it combines modern design with efficient electric performance, powered by an 81 kWh battery. This setup provides a maximum range of 362 miles when new, offering significant distance for daily commutes and longer journeys alike. Charging is straightforward, with a full charge at home using a 7kW charger taking 8 hours and 3 minutes, while public rapid charging stations can boost the battery from empty to 80 percent in just 35 minutes. The vehicle is equipped with a range of technology designed to enhance both comfort and safety. Drivers benefit from a customisable head-up display and a blind spot view monitor, which includes blind spot assistance to help with awareness on the road. Parking is made easier with front and rear sensors and dedicated parking assistance systems. The exterior features LED headlights with a distinct small cube design, while the interior experience is elevated by an 8-speaker Harman Kardon premium sound system. These features collectively offer a high level of convenience and audio quality that distinguishes this model within its class.

Alliance Centre, Greenwell Road, Aberdeen, United Kingdom, AB12 3AX
