Description

The 2026 BYD Seal Excellence is a fully electric vehicle that combines modern performance with practical design. As an Excellence trim model, it features a four wheel drive drivetrain powered by an 83 kWh battery, which offers a maximum range of 323 miles when new. This particular vehicle has had only one owner, ensuring a straightforward history for its next driver. This model is designed to make daily driving more convenient and responsive. It offers impressive acceleration, capable of reaching 0-62mph in 3.8 seconds, and supports efficient travel with a public charging time of 42 minutes to reach 80 percent capacity. The vehicle is equipped with a comprehensive suite of technology to assist the driver, including a 360 degree camera and rear parking radar for easier manoeuvring. Comfort is prioritised through dual zone climate control and automatic headlights, while the side mirrors are highly functional, featuring electric adjustment, defrosting, reverse auto-tilt, automatic folding, position memory, and a blind spot indicator system.
